

MAIL ORDER FORM

WINTER 2005

This year's plants available to our mail order customers again include a selection of bare-root roses as well as container grown varieties on their own roots.

Bare-rooted roses will be dispatched between June and August. Own-root plants can be sent until the end of September.

The latter are grown out-door in soil-less medium for at least one year before sold. To optimise your success these are shipped with some "soil" attached.

Please list possible alternatives in case stocks of any varieties in your selection are low.

MAIL ORDER PRICES are as indicated.

POSTAGE & PACKING CHARGES depend on the AUSTRALIA POST parcel charging zone you live in and on how many plants are sent.
